

**THE BOARD OF DIRECTORS' REPORT FOR THE FINANCIAL PERIOD
ENDED 30 June 2015**

Dear Shareholders,

Assalam Alykum Wa Rahmat Allah Wa Barakateh,

Alhamdulillah, by the grace of Allah we have completed another progressive quarter in our efforts to grow Sharia' compliant banking in the Sultanate.

On behalf of the Board of Directors of Bank Nizwa SAOG, I am pleased to present to you the results for the Second quarter ended 30 June 2015. These are based on the unaudited condensed interim financial information which has been reviewed by our external auditors.

ISLAMIC BANKING MARKET IN OMAN

The Islamic finance sector has witnessed unparalleled growth over the past two years, the industry has now entered its third year with dedicated efforts in improving the industry position. The five conventional banks with window operations and the two full-fledged Islamic banks, particularly Bank Nizwa are seeing the momentum building as a result of the hard work and investments into products, technology, branches and communication. We, as Bank Nizwa, in our capacity as one of the Banks offering Sharia compliant products and services, continued to work on two areas that will yield the results that we desire. We are committed to:

1. Creating awareness about the industry and its procedures with the population at large, and with corporates licensed to operate in the country. We are pleased that our efforts are providing the results we desired with the consumer and are also realizing the fruits of our investment in the corporate segment.
2. Continuing our commitment to make Islamic banking more accessible by increasing our footprint.

Awareness

We continued our ongoing strategy of raising awareness on Islamic finance across the Sultanate. Our commitment to empower local communities with knowledge on Islamic finance and shari'a-compliant products and services triggered the launch of our educational platform entitled "Islamic finance knowledge series". The series aims to benefit over 1000 students and academics including corporate and public sector employees. During the second quarter the series continues its tour to major colleges and universities throughout the Sultanate. In addition it targeted entities within the public and private sectors in order to reach out to wider audience. The bank also utilized its social media platforms with various campaigns to raise awareness about Islamic finance.

FINANCIAL PERFORMANCE

The bank's total assets as end of 30th June 2015 reached Omani Riyals 300 million. During the quarter, growth in our gross financing portfolio reached Omani Riyals 205 million with more than 8,100 financing accounts. This growth in financing portfolio in both businesses retail and corporate has provided the momentum needed to continue our growth trajectory. This momentum will enable us to achieve our long term objectives.

As a result of financing growth, we enhanced the quality and diversity of revenue base towards core revenue and revenues sustainability rather than relying on one off gain which is a positive indicator to achieve our future targets and objectives.

The growth in our Customers' deposit portfolio as end of 30th June 2015 reached Omani Riyals 136 million, is a positive indicator for the bank's market share as more customers are now enjoying Sharia Compliant competitive profits and our personalised banking services. The bank is now serving more than 41,500 retail and corporate deposit accounts.

The bank maintained high assets quality without any non-performing financing since inception. In addition, the bank has strong capital adequacy ratio and sufficient liquidity assets.

Our total revenue grew 46% over same period in 2014 while expenses increased only by 7%, and as our financing portfolio grows, the growth in revenues will be adequate to offset the operating expenses being incurred. This will result in declining cost to income ratio to a level that is in line with matured banks.

The interim progress of the Bank is clearly evident of the positive and upward trajectory which should enable the Bank to meet the objectives for the year 2015 and going forward.

THE YEAR AHEAD

Our 2015 strategy has proven to be successful and we will continue to work along the same principle throughout the year. Our focus remains on continuing to grow our balance sheet in a controlled manner, diversifying our sources of income, and expanding our product and client base. Despite the fact that weakened oil prices have slowed down growth across the GCC, we are however optimistic that the Omani economy will have some growth due to government support and the contribution of the non-oil sector. We will continue our vigilant approach to grow our market share while maintaining excellent asset quality supported by our efforts to strengthen operations, product and service propositions with particular focus on Consumer Banking, Corporate Banking, Investment Banking, Global Markets, SMEs and mobile solutions.

Our focus remains on growing our balance sheet while keeping customers at the heart of all our operations, our values and our products. Over the next three years we will remain focused on enhancing and specialising our core business activities, in addition to capitalising on synergies between our business lines. With our medium term strategic objectives, we will ensure that the Bank has sustainable growth and we will continue to drive revenues across business segments by increasing our customer base. We will further build our product offerings to provide comprehensive client solutions for all our consumer and wholesale banking customers by leveraging on the existing expertise and established infrastructure.
